

## Cubic FY2020

### Cubic Defense Applications Inc. (Austin, TX)

- research to develop and demonstrate software for real-time logistics and supply chain system situational awareness, future state prediction and assessment of resilience at unprecedented scale and speed → Austin, TX (61%); Minneapolis, MN (22%); Reston, VA (17%); N65236-20-C-8007; 11 Mar 2020
  - o contracting activity = Naval Information Warfare Center Atlantic, Charleston, SC

### Cubic Defense Applications Inc. (Orlando, FL)

- support the Surface Training Immersive Gaming and Simulations effort and provide for development, delivery, and total life cycle support of a new virtual environment training system; life cycle support of the new training systems includes updates, maintenance, upgrades and modifications to surface ship trainers and associated courseware to maintain fleet operational readiness; this “system will be one of the pillars under the overall Surface Training Advanced Virtual Environment Program”; 6 July 2020
  - o Naval Air Warfare Center Training Systems Division, Orlando, FL (N61340-20-D-0018)

### Cubic Defense Applications Inc. (San Diego, CA)

- AN/USQ-167(V) Communications Data Link System (CDLS): production of five CDLS Tech Refresh (TR) Integrated Antenna Systems (IAS)<sup>1</sup> for Nimitz class aircraft carriers; Cubic will also provide and order engineering services and provisional items required to support installations, repairs, and sustainment; 17 Apr 2020 (credited as “Cubic Dense Applications”)
  - o Naval Information Warfare Systems Command, San Diego, CA (N00039-20-C-0015)
- engineering services in support of the Interim Joint Secure Interoperable Live-Virtual-Constructive (JSILS) and Secure Live Virtual Constructive (LVC) Advanced Training Environment (SLATE) – Advanced Technology Demonstration (ATD) for future consideration as a usable operational LVC training environment that “will inform service program of record options for support to the warfighter”; provides design, engineering and test/demonstration services to mature technologies (JSILS and SLATE–ATD) → San Diego, CA (80%); China Lake, CA (10%); Patuxent River, MD (10%); N00421-19-G-0005; 20 Aug 2020
  - o NAVAIR, Patuxent River, MD
- P5 Combat Training System (P5CTS) contractor logistic support in San Diego; FMS is approx. 56% of contract and includes Australia, Egypt, Morocco, Oman, Poland, Qatar, Saudi Arabia, Singapore, and U.K.; 10 Sep 2020
  - o AFLCMC Hill AFB, UT
- depot-level maintenance, repair, refurbishment and engineering services on AN/USQ-167(V) Communications Data Link System; Cubic will also “provide engineering services and provisional items ordered required to support obsolescence, subsystem documentation, systems interface evaluation, technical suitability, reliability, maintenance, configuration management and travel”; N00039-20-D-0025; 29 Sep 2020
  - o Naval Information Warfare Systems Command, San Diego, CA

### GATR Technologies (Huntsville, AL), a Cubic subsidiary

- Next Generation Troposcatter system manufacturing and delivery, test support, technical data delivery, logistics data delivery, training data delivery and training support, fielding support and sustainment support; 29 Oct 2019
  - o Marine Corps Systems Command, Quantico, VA (M67854-20-D-2000)
- part of the Global Tactical Advanced Communication Systems ([GTACS II](#)) and services; W15P7T-20-D-0006; 6 Jan 2020 (w about 20 other corporations for collective \$5.1B)
  - o Army Contracting Command, Aberdeen Proving Ground, MD
- 1.2 meter and 2.4 meter Ground Antenna Transmit and Receive (GATR) inflatable satellite communications terminals and ancillary equipment in support of SOCOM; H92401-20-D-0003; 3 Aug 2020
  - o SOCOM, Tampa, FL

---

<sup>1</sup> AN/USQ-167C(V) CDLS-TR IAS consists of two directional/Omni antennas, one Omni only antenna, and three above & below deck split radios with comms security module.
